

Motorbike Gloves

Motorbike Gloves With full updated ergonomic shaping and design details, the GP Plus R v2 glove gives the most demanding sports rider protection, feel, flexibility and comfort. This innovative and protective leather and multiple-material construction affords a secure and precise fit, and features Alpinestars patented finger-bridge to prevent contortion and finger separation. Internal aramidic fiber hand and thumb reinforcement, plus an aramidic fiber layer around little finger gives excellent abrasion resistance. Alpinestars patented third and fourth finger-bridge prevents leather from twisting on fingers, and helps prevent potential burst seams and finger separation. Palm pad panel combined into palm / thumb / little finger reinforcement.
